NUMBER TWENTY ONE

Divine Will Talk To 'Y' Tuesday

Second Caltech Lecturer Speaks Here Tonight

DAVIS TALKS TO STUDENT BODY TONITE

"Lessons Of Grand Canyon"
Is Subject Of Speech
To Aid Student Fund

Tonight the Caltech scientific lecture course will be resumed with William Morris Davis discussing the "Lessons of the Grand Canyon of the Colorado" in the high school auditorium at 8 o'clock.

"Professor Davis is the most prominent geologist in the country, states D. K. Hammond, college president. He continues, "For the average laymen his lecture is the most interesting program of the whole series."

Not only is Prof. Davis an interesting speaker, but, declares President Hammond, his talk will be made especially interesting by slides and designs that he uses.

Approximately \$700 will be realized from the lectures for the Caltech Orange County student loan fund, judging by the season tickets sold and attendance at the last lecture. This money will all be loaned to Orange County students admitted to Caltech.

The lecture on astronomy by Prof. Edwin Hubble that was scheduled two weeks ago, but was postponed because of the earthquake will be given at the end of the series. The remainder of the lectures will be presented as originally reported. Dr. Einstien will not appear with Dr. Hubble, or with any of the other speakers, due to the fact that he had to return to Europe sooner than he expected, states Mr. Hammond.

The next lecture will be held April 14.

Class To Present Plays, Says Phillips

Ernest Crozier Phillips announces that he has cast several one act plays to be given by members of the drama classes in the near future.

The plays are to be presented by students, and advanced students of drama will take charge of directing. There will be many good plays used, Mr. Phillips, and they should provide plenty of entertainment.

Although there have been no plans made for the presentations of these plays, there will be in the near future, states Mr. Phillips. Several plays have been discussed. They may be given as an evening's entertainment in the auditorium, or they may be used for various assembly programs.

Deadline For Del Ano Pictures Is April 18; Single Price \$1

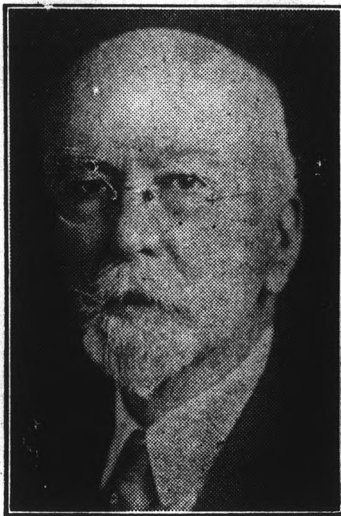

Those Not Able To Pay Now May Get Okay Slip From Auditor's Office And Pay When Convenient

All graduating sophomores are urged by Bill Campbell, business manager, to get their pictures taken for Del Ano as soon as possible, in order that the book may be on sale by the scheduled date.

"It is not necessary to pay your dollar when the picture is taken," states Mr. Campbell. "Any sophomore who is not able to pay can get an O. K. from Mrs. Hicks, and have his picture taken immediately. Then he can pay when it is convenient with him to do so, within a reasonable length of time."

"Del Ano is a student publication, and it is up to the students, especially sophomores, to see that it is completed and out on time. The deadline has been extended for individual pictures to April 18, and if any have not had

Gama Sigma Has Annual Confab At Chaffey Jaycee

Santa Ana chapter of Alpha Gama Sigma was represented by seven jaysee honor students at the third annual convention of the state junior college honor organization which was held at Chaffey Junior college, Saturday, March 25.

One of the highlights of the meeting was the announcement of scholarships and the presentation of representatives of four year colleges. This event took place at luncheon. Every year Alpha Gama Sigma awards several free tuition scholarships. Eligibility for such scholarships is based on life membership in the chapter, high character rating and a good record of extra curricular activities.

Dr. Walter Dexter, president of Whittier college spoke on "Scholarship" at the afternoon session. There were also reports of the recording secretaries, entertainment by Chaffey students, and a business meeting.

After partaking of an informal tea in the patio along with delegates from other 12 junior colleges, the meeting was adjourned. Delegates from Santa Ana were Misses Betty Hawk, Ruth Jenkins, Marjorie Woods, Evelyn Fairley, Katherine Chapman, Lella B. Watson, adviser, and Messers Gene Hall and Duncan Harnois.

Geologists Will Visit Western Borax Company

Members of the Geology 51 class are motoring to Kramer Saturday, April 1, to visit the Western Borax Company.

The trip will be made by car and will include an underground survey of the Curnite mines in that section of the country.

Pomona Glee Club Presents Recital To All Students

Pomona College Glee Club gave a program in assembly this morning to members of the student bodies of both Santa Ana Junior College and the High School. This entertainment was free to all ticket holders and a five-cent charge was made to all others.

Pomona Glee club is, at the present time, national champion, and is starting its spring vacation tour which is to last for one week starting today. This is the first program that it is to give on its tour. It will travel and give concerts as far north as Sacramento.

Crawford Nall, Santa Ana junior college student, is the business manager of the club, which is directed by Alfred Lyman, who, for the past number of years has been conductor and has coached them to the position and honor which they now hold.

Lewis Danz, lecturer, traveler and authority on music and art who spoke to the Letters and Science group during the March 7 assembly may return to this college again this semester, according to D. K. Hammond, president, and introducer of the speaker.

According to Mr. Hammond students enjoyed Mr. Danz's talk on art appreciation, and he feels that it would be well worth while for him to return and speak on his travels.

Many who heard Mr. Danz expressed the opinion that his definitions of art were very clear and would cause the average individual to retain a higher opinion and comprehension of art.

Students Attend Press Convention

Representatives of El Don will attend the semi-annual meeting of the California Junior College Press Association to be held on the campus of San Bernardino Valley Union Junior College tomorrow.

Mr. Robert Sibley, editor of the Alumni Monthly of the University of California has been secured as the main speaker. Newspapers will be judged on the best editorial, best sport story, best feature story, best make-up, best news ostry, and best front-page make-up. Judging will be done by the University of Southern California which will also make the awards.

Bill Kisting, editor of El Don, has been asked to take part in a discussion of front page news and make-up. Miss Betty Whitney will help in a discussion of problems to be met and overcome by business managers. Others who will attend the meeting are James Torrens, Mable Peoples, Orville Plumlee, and Edgar M. Flowers, instructor.

Post Copy Deadline Set Ahead One Week

Although the deadline for Tavern Post contributions was March 10, and most of the copy is already in, an extension of over the week end has been made, making it possible for any students who can finish material and have it in by Monday evening, April 3, to get their works published, the Tavern Post staff announced today.

An unusual number of contributions have been received, covering everything from original poems, stories, essays, or plays to original works in or translations from foreign tongue, and a large issue is expected, with the possibility of having the Post issued twice in the coming year.

Tavern Tatlers will meet Tuesday night at 7:30 in the jaysee library, states Bruce Chalmers, president of the club. Business of the evening will pertain to the publication of the

April 29 Chosen As Date For Los Gauchos' Dance

Since the Huntington Beach city hall has been condemned and all the city officials have appropriated space in the Memorial Hall, the Gauchos will have to hold their Spring Sport dance elsewhere, announced President De Witt Bishop yesterday. "April 29th will still be the date, but right now we are scouting for a suitable hall", remarked Bishop.

Committees which will work on the sport dance were appointed at a meeting held in the home of George Farquhar, Huntington Beach, Monday night, March 6th. Many of the plans formulated then have since been altered because of the hall situation.

Monday, April 3, Los Gauchos will go to Irvine Park for a steak bake and dance in the pavilion to Walt Carruther's amplifier, according to plans completed at the last meeting.

Seven pledges received their first bit of initiation. In order that the members might find the place of meeting, the pledges worked in shifts with red lanterns to direct the traffic. Later they were turned loose on a jig-saw puzzle which they had to complete before they were permitted to go home.

The pledges also provided the entertainment of songs and games. George Lange, was featured with a medley of popular songs on his banjo.

Popcorn and cider (sweet) were served.

Members present: Martin Lorenzen, De Witt Bishop, Charles Warner, Howard Randalls, Morris Singer, Walt Carruthers, Clarence Compton, Gordon Cudworth, Raymond St. Claire, George Farquhar, Wilton Hilliard, Fred Pinkston, Maurice Plumlee, Jimmie Quiggle, Sharkey Plumlee, Kenneth Patrick.

Pledges: Herb Diebel, Winston Pollard, Dan Finch, Bill Townsend, Don Davis, Raymond Furuta, and George Lange.

Pomona Sponsors Speaking Contest

Pomona Junior college will hold an extemporaneous speaking contest for the Eastern conference of the Southern California Junior College association, Friday, May 5, providing that there are five schools interested.

The contest will be opened to all junior colleges in this division and the subject for debate will be "International Relations in the Pacific Area." All entries for this contest must be in by April 14, according to the commissioner.

In the contest every school is entitled to one representative and the speeches must be 10 minutes long. Each speaker will draw a subject based on the main topic and will have an hour to prepare his final speech.

Any students interested in this contest may try out before April 14, states Sheldon M. Hayden.

Yacht Party Plans Made By Buccaneers

Members of the Buccaneers club and pledges met in the home of Clayton McKeeth last Monday night, to discuss plans for the annual yacht party and the initiation of new members.

Plans were made for the yacht party to be held during the last week of May, on which the members of the associated students are invited. The charge for the event has been reduced from that of last year and it is stated by the President of the club that this will be fixed so that every student will be able to participate. Members discussed plans concerning the initiation of new members and plans for a bridge party to be held with some other club.

Bachelors Stage Final Initiation Monday Evening

Initial plans for La Fiesta were proposed at the Bachelors' meeting Monday night at the home of Jim Goodfellow, Garden Grove.

Although La Fiesta will not be held for two months yet, the club deemed it advisable to start work early on such an important event. President Goodfellow appointed two committees, one for initiation and the other to draw up ideas for their coming beach party.

Three pledges, Chalmers Lawson, Byron Stoddard, and John Tomblin, were given their first taste of initiation, and have since been going through "hell week". Failure to comply with instructions posted daily on the bulletin board will drop the pledge from membership. These three had to wear gunnysacks for underwear Wednesday, while Thursday and Friday they were forced to possess a can of black and brown shoe polish and two clean rags.

Final initiation measures are scheduled for next Monday night. The place of meeting is yet undecided, but will be either Artesia or Balboa. In addition to work on La Fiesta, the Bachelors will consider prospects of their annual beach party.

Meninas, Buccaneer Members Hold Party

Holding a joint meeting, Las Meninas and Buccaneers met in Irvine park for supper and dancing. The menu was prepared and served by the women's service club. The program for the evening was prepared by the pledges of both organizations.

The men presented a skit, "Blessed Event" where Don Baldwin, Bob Tannenbaum, Lee Sullivan and Abe Burgesetter took parts.

Championship Won By Santa Ana If Chaffey Loses In Last Battle

Santa Ana Debaters 100% Perfect In League Debates; Robert Tannenbaum Places Third In Contest

By winning the last two league debates, Santa Ana jaysee debate team stands in good stead for league championship this year. Unless Chaffey junior college wins her last debate, Santa Ana is victorious.

March 9 the jaysee team met Riverside junior college here when Bill Kisting and Ted Meece won the affirmative side. Judge of the forensic fray was B. D. Scott, head of the speech department at Pomona college.

March 10 the negative team consisting of Bob Tannenbaum and Kenneth Stoll won the debate at San Bernardino junior college. Professor C. H. Nichols of the speech department of Redlands University judged the team.

DR. EDDY TO SPEAK AT "Y" BREAKFAST

Nation Wide Speaker Will
Talk Also At Jaysee
Assembly Tuesday

Sherwood Eddy authority on social and industrial problems of the world, will speak to jaysee students Tuesday at a breakfast and assembly that day.

"Dare We Be Christians?" is the topic of his informal breakfast talk, while he addresses the assembly on "The World's Danger Zones, the Challenge of the Present World Situation."

Dr. Eddy is coming under the auspices of the Y. M. C. A. and Y. W. C. A. as "Y Day" speaker. "Y Day" is a day set aside each year in which they secure some national authority on social conditions and trends to speak to the students. This year, according to Dean McKee Fisk, they are especially fortunate in securing Sherwood Eddy.

For many years, Dr. Eddy was the "Y. W." secretary for Asia and has worked among students of Japan, Korea, China, India, the near East, and Russia. His work has carried him into the important industrial and social centers of Europe and Asia, and he is acquainted with the leaders of nearly every important country.

The junior college breakfast will be held at 7:00 o'clock in the cafeteria and the assembly will be held in the auditorium at the regular time. The breakfast costs 20 cents a plate and tickets may be purchased from any Y. M. or Y. W. officer. All students are urged to attend the breakfast. (Continued On Page 4)

Junior Lions Elect Glen Smith Head

Glen Smith was elected to succeed Bob MacFarland as president of the Junior Lions club last Monday. Mr. MacFarland, who has been appointed Fiesta Day chairman, resigned the presidency because of outside work.

At the meeting plans were discussed for the undertaking of three dances in the near future. The first dance to be sponsored by the Junior Lions is the Fiesta Day dance. According to Larry Taylor, vice-president, this affair is to be one of the highlights of Fiesta day. A ditch-day dance and a dinner dance are to take place this semester.

Dr. Murray Bates, hygiene instructor, is acting as associate adviser to Mr. Holmes. The pledges of the club are Clarence Patmor, Frank Ronsholdt, Guy LaVelle, Dave Whitford, Tommy Neer, and Austin Joy.

It is the aim of El Don as the official newspaper of Santa Ana Jaycee associated students to:
 1. Taken an active interest in the welfare of the association and aid in the progress and promotion of the organization's ACTIVITIES.
 2. Assist in making the Santa Ana Junior college the best educational institution of its kind in California.
 3. Promote the most friendly and cooperative relationship possible between students of the school and faculty members.
 4. Assist student officials in discharging their duties by presenting the attitude of students on problems of the association.
 5. Offer unbiased, truthful and enterprising account of events on the campus, thereby aiding in the promotion of such activities.

PRESS ASSOCIATION

EDITORIAL COMMENT

Arch-Villainy

Studying has its place, but not in the arches, experience has taught several students. It seems that various attempts at studying have proven rather a noisy process and consequently the industrious ones were propelled from out of the arches and to places where they could study and not interrupt classes and bother other people.

Students were asked not to make disturbances during class time. This did not do any particular good, so it went further and they were not only asked but warned. Again this met with no response from the students and action was taken. It will continue to be taken until the cooperation on the part of the students is insured.

It is an old saying that to overcome unpleasantness is to remove the source. If the Junior College students must act like children they will be treated as such!

Buy El Don

At the present time much interest is being shown by our elders in a Buy American campaign. We students could enlarge upon this idea and in addition to buying American we could buy EL DON. We could patronize those merchants that patronize our school paper.

The school paper is now being edited once every two weeks instead of every week due to the fact that the budget must be adhered to. One way to remedy this above condition and to make the EL DON a weekly again is to make the paper as near to self-supporting as possible.

If the paper can secure the cooperation of enough Santa Ana merchants, the rigid economy under which we are now working could be alleviated. The merchants, however, have adopted the viewpoint that it does no good to advertise in the school paper as the students do not patronize them. The only way to remove this idea is to patronize those merchants that patronize us. BUY EL DON!

Follow The Leader

For years temperance organizations had worked for the cause of total abstinence. They had lead with the public to abstain and had stimulated opposition to the alcohol pestilence. They also fought for assisting legislation which finally culminated in the passing of the eighteenth amendment. Then cried the temperance workers, "Our work is done, abstinence of the public is an obligation of the government, the job is in the hands of the police." Their efforts waned and so did public opposition to liquor, the law ceased to reflect the opinion of the public and it was flagrantly trampled on by the citizen and winked at by officials.

The dry forces failed to realize that their work could ever be done but they had to persist in their efforts and co-operate with the officials of their cause was to succeed.

The lesson they should learn is a lesson to be learned by everyone every where. Officials are elected for certain jobs but the forces electing them refuse to grant them the necessary co-operation to put the job across. The real work in nearly every church, club, lodge, or school organization is done by a handful because the majority do not co-operate in carrying out the work because they have elected certain officials whose election terminated the activities of the majority. Our representatives are called leaders but they are not leaders unless they are followed. Let us co-operate with those we have elected to represent us.

Tune In On S. A. J. C.

Santa Ana Junior college is one of the few junior colleges in existence that runs scheduled radio programs over a commercial station. This program, which is broadcast every Friday night from 8:00 to 8:30 over station KREG, is sponsored through the courtesy of this college to foster interest in activities being carried out here.

Even if these programs were not wholly worth while hearing, it might be said to be the duty of the students to listen to them whenever possible. But these are good programs, and they are free. So click on your radio some Friday evening while you are working your jig-saw puzzle, and get a trial sample.

Mr. Stevens cordially invites those who wish to see these programs broadcast to come up to KREG in the Register building some evening and see something of how radio stations operate.

TEMBLOR TALES

Time—1993.
 Grandfather Dunc—"Go rescue grandpa's whiskers from the washing machine wringer and he'll tell you a story."

Bobby—"Keen. I get so tired reading Ballyhoo."

Grandfather—"Many years ago when I was a young fellow going to S. A. J. C."

Bobby—"Quit spelling words. I'm old enough to know."

Grandfather—"There was a terrible earthquake."

Bobby—"Sure it wasn't something you drank?"

Grandfather—"Nope, I saw it with my eyes, heard it with my ears and some of it fell on my head."

Bobby—"I knew something fell on it."

Grandfather—"The house began to shake. I still thought it was my stomach—first what does it matter what I thought it was? Then I remembered my school quaking there all alone. I dashed over to the campus and grabbing the columns in front with one hand, I held them up and supported the roof with the other. My feet were planted against the wall and my head braced everything that needed bracing."

Bobby—"Whatta man. Is it spina-ch of Luv?"

Grandfather—"F. B. came running out of the building saying—can you guess what?"

Bobby—"I'll bet he said, 'That was a dirty crack!'"

Grandfather—"Where was I? Oh yes, I holding Alma Mater."

Bobby—"Does Grandma know about this?"

Grandfather—"Your grandmother knows everything. The school wasn't hurt. A few grains of plastering fell, a mere speck. If course if it hadn't have been for me—They dismissed school and held a celebration in my honor for two weeks."

Bobby—"Spill some more, Gramps."

Grandfather—"I saw Y. N. leap over a five-foot fence on her way out. She made a happy landing, though. I remember later what a nice couple they made. Second like everyone was taking a bath that night. Neighbors met each other informally in bathtubs or curtains. I saw M. C. parading down First street in a bathrobe, with soap still in her ears. She said she thought she had gotten in a cradle instead of the tub. P. W. was in the bath-tub when the quake struck too. R. W. yelled in the door, 'Sit down! you're rocking the boat!' Ah, those were the good old days; earthquakes quaking, floods flooding—"

THE LOST CHORD

A jaysee assembly is standing. A piano is playing. We will start on the front row. The subject has eyes raised to the ceiling, hands behind back and is making a low moaning noise like a dove mourning her firstborn. Next to him is another maintaining a painful sphinx-like silence. The next is standing on one foot and biting his thumb. To follow the piano with little artistic success but lots of variety. Beside him is one who has tried to sing but failed, and stands, a broken soul. A wobbly tenor tra-las and quarells hesitatingly with the piano. The next is a dynamic character who wa-da-de-dos forth with all stops out. Very un-Bing-like.

What is this, a bunch of hummingbirds or a song without words?

We will go to the next. That's too bad. He is halfway up the aisle. Guess he had a date with the dentist. His chair yawns vacantly and so does the next student. He otherwise may have held the clue to the mystery. Here is the last one. He is silent except for short spoken words here and there. We hear "Junior College" "dear" (in a hoarse whisper) "loud and clear" "thy fame". The whole row suddenly shouts "Our alma mater dear" and scramble up the aisle to dinner.

Lila Nightingale: "So glad you came, we were just talking about you."

Ruth Rolands: "Thank you, dear. That's why I came."

Helen: "I see where Chicago left Santa Ana after a short stop."

Harriet: "Well, she always was crazy about athletes."

Murray Patton: "I hear your brother was in an accident, Marie."

Marie: "Yeah, a steam roller ran over him right in front of our house."

Murray: "Did they carry him in?"

Marie: "No, they just slipped him under the door."

DOINGS OF DONS

BY GEORGE FARQUHAR

(Overheard at Press club-O. K. club party) Girl: Who are the sponsors of this affair?

Westy: Mr. Flowers and Miss Decker. (pointing them out).

Girl: Does he teach? Why, I thought he was a student at the junior college!

Art Casey has been suffering from a nervous breakdown. Well, who wouldn't with a girl like Lucy Harper?

"Beer Baron" Kisting is tied to apron strings again. And is he glad? "There's no girl like Verna", says Bill. Why, he's even given up smoking, tossed his last pack to George Lake.

Mary Darnell packed up and left for the East, just the general eastern direction, Tuesday after the earthquake.

The jaysee crowd down at the Rendezvous a couple of weeks ago heard Dean Benton sing a few popular melodies over the "mike".

The routine for a Rendezvous date: Girl's house at 7:30, she's ready by 8 p. m., jetty and moonlight 8:20-10:00, dance 10:05-12:00, home at 2:00 a. m.

Simile: As crusty as the gentleman who tried to float a 5 cent loan with the student loan fund to buy himself a cherry coke.

Johnny Wells went to the Huntington Beach DeMolay hay ride stag. He had a date with a little high school sophomore blonde, but her mother wouldn't let her go at the last minute.

Alma McDonald slept in her "tent" the nite of the terra firma jitters.

Bill McDaniels took an early street car out to see Ernie Wakeham in Garden Grove one nite during vacation. It is alleged that they made

candy and popped popcorn until Bill glanced at his watch and discovered he had but one minute to catch the 1:00 o'clock car, the last chance to ride home. He grabbed up his jacket, Charlie Paddocked to the street car line, lit a newspaper and flagged the train. Ernie brought the rest of his clothes to school Monday.

Paris, Calif. (United Press report): While visiting Erma Seamans, who is convalescing from an appendicitis operation, Bob Wilson tried to kill a horse during an afternoon canter. The innocent beast fell and broke his leg with Wilson riding him all the way down, uninjured. Wilson will be shot tomorrow.

Edgar M. Flowers (lecturing on journalism). In writing your "El Toro" copy, keep away from booze, women, and cigarets.

Bob Clingan: But, that's the only thing in life that's interesting.

Have you noticed the footprints on our new ceilings?

Jack "Dead Eye" Stewart and Harold "Bucket" Welty tangled in a cloud of fists and half nelsons Tuesday. The Tarzanian display followed a heated argument familiar to the gladiators only.

Who is this outsider J. F. that frequents the campus for a few moments of stolen bliss with Pauline Wells?

Alma McDonald can certainly pucker a mean lip. They've been chapped and swollen for the last two weeks.

Who was the date that so disappointed Dot Hatch at Laguna Beach Friday nite?

Emma Wetlin has a new honey. She's that way about the treasurer of the student body at Huntington Beach high. They danced most of the evening together at the Phi Sig hop at Laguna Beach.

NOISE

Who is this broken-hearted "gal" who is going around the campus in a fog, that a very prominent "Newspaperman" in this "College" is the cause of it all? Hang on, sister, there's a guy named Wells tripping around, that takes care of such things.

While this Wells guy is trying to hog the spotlight, he's a swell Putter, (Golf, my dear). He has a swell collection of broken shafts and lonesome clubheads down in the big Oil-dump of H. B. If any of you girls would like to see 'em, call at Lil Dottie Hatch's (the cute kiddie) and just try to tear him away from the meat and spuds. Yep, ol' Slicker Lake has his fork in on it, too.

Girls! Girls! All of you. Don your best, and drag out that new lipstick! The younger Kisting is on the loose. If you live closer than Tustin, you'll find his number in the telephone book.

PANT SITUATION

Marlene Dietrich, leading the wanted to. Toots Dalton: I think it's cute. Sure, I'd wear them.

Evelyn Fairly: I think it's all right. They're O. K. for riding bicycles, roller skating, and climbing trees after cats that my dog chases. I think skirts are cooler.

Mary Malsed: I think it's terrible. I wouldn't wear them.

Dorothy Ensign: It doesn't appeal to me. The only place I'd wear them would be to the beach or to the mountains.

Mabel Kendall: Personally, I like dresses better. I think boys should wear the pants. In these times I don't think the fad will go over.

Kate Sumner: Why, I like them. Sure, I'd wear them. Think of all the freedom we'd have.

Adahuth Ellis: It depends on the girl. Some look nice and others look terrible. That's why I don't want any.

Alma McDonald: I don't think much of a girl that would wear slacks. I wouldn't wear them if they were given to me. I don't even like hiking pants, or any pants; I think they're for men, at least long ones. I don't even like pajamas; my old "tent" is good enough for me.

Ernie Wakeham: Oh, I think they're cute. I'd wear a whole suit if I had one.

Gail S. Smith: I think it's pretty much their own business what they wear. There is no moral question involved.

Adam Lehr: I like them.

WIMMIN

Here is a new wrinkle! These nice wide cuff bracelets are now coming out monogrammed.

My, my doesn't it seem good to see light colors, ruffles, and such! Spring may be early, but evidently we were prepared, for ever since the first warm day, there has been a generous sprinkling of white skirts, linen dresses, and jumpers. For evening-wear, the newest is starched chiffon made straight at the hips but with exaggerated sleeves and full skirts. They are stunning in pastel shades and hm! hm! the stores are featuring them at a depression price.

Have you an ivory toilet set that shows the wear and tear of spilt perfume, hand lotion, and the like? If so, this same ivory can be cleaned nicely with lemon juice and salt.

If you are interested in the stars of the ether waves, perhaps you will be interested in knowing that Paul Roberts or Robert Hurd is five feet eight, weighs 165 pounds, is in his late thirties and is beginning to grow right through his hair; Sleepy Dolan is slim and 27 years old; Bing is under his new contract for 26 weeks, and on the side he is a good golf player; Burns and Allen broadcast from Los Angeles have a musical background furnished by Guy Lombardo in New York; George Wahl is the 19 year old soloist who sings with Carol Lofner's orchestra; and Johnny Murray is 28 and married.

Speaking of modern education, Charles Rickettan Allen says, "We try to teach domestic science to girls in their teens at a time when they're interested only in clothes and make-up. Why not teach them clothes and make-up?" Imagine taking a course in specialized lipstick or how to stop runs in three easy lessons. My, my.

There's a new sweater out this spring that shows somebody is on the job for school people. It is really a new type of the w. k. "pigskin," without which no bleacher at last fall's football games was complete.

It starts out in the shoulders like last fall's version, but it has a new looseness or something built into the shoulders and arms that make it an ideal sweater for tennis, and so for everything else. Some of the boys have tried it out and say that its unusual freedom in action feels like a new deal in sweaters.

It has a belted back effect, is made of summer weight Wool Ray, a lively 100 per cent wool, and in the pretty solid colors that fit in with any Spring color scheme, masculine or who's that with you!

LIVE AND LEARN

GRIEF

By Stewart Fletcher

The old man sat reclined at ease, His thin hands clasped below his knees.

His watery eyes were fixed afar, Between his teeth a gnawed cigar. He slowly chewed, and shook his head. Ruminating while he said, "They'll take my stock whate'er I do! They'll take my ranch for taxes, too. They'll take my gold and give me beer."

It makes me boil inside, darn near. They'll get this country in a fix. That's all they know in politics. They put some fool up at the head, While we darn fools just find his bread.

We work to put some new thing through And end just like he wants us to. Our school, it seems, is worst of all. That thing gets worse each passing fall.

They try to use new-fangled ways And keep the students in a daze. The thing I know is worst for me—My son attends their blamed jaysee.

Sport Schedule Upset

Santa Ana's sport schedule was somewhat jumbled by the recent convulsions of Mother Earth. The dual track contest with San Berdoo has been cancelled four or five times, but will probably be run off next Tuesday. All events that have been postponed during the unexpected vacation will be run into the regular schedule.

Intra Mural Sports

Considerable comment as to the possibilities of an elaborate program of intra-mural sports has been floating around the campus recently.

During the last few years colleges have come to realize the importance of intra-mural activities, and have added them to the regular athletic program. Our arch-enemy, Fullerton jaysee, has worked the idea out to perfection. If they can succeed in this movement, we can go them one better and make it super-perfect in our institution.

To Include All Sports

Should the idea be carried out, it would embrace all the sports possible. The Service Club basketball tournament which is in progress at the present time is going over with a bang. This is an example of the kind of tournaments under the new system. Plans are being laid to hold a service club relay carnival. There is also the possibility of an interclass swimming meet. This great variety of sports included under the intra-mural plan will be the basis for its popularity and success.

Although we could not hope to perfect the plan this year, we could start the ball rolling, and lay the foundation for the future organization. This column, for one, is behind the movement 101 per cent, and would like to see a committee appointed, either by the physical education department or the athletic commissioner, for setting the necessary machinery into motion for the formulation of plans whereby the idea could be carried out.

Attitude Shown By Interviews

According to a recent canvas of prominent coaches, instructors and students, the intra-mural idea received much favorable comment. Some of the interviews appear below.

Coach Bill Cook: Other schools have worked the plan out with considerable success. U. S. C. has the intra fraternity contests and has extended them to include basketball, track, baseball and swimming. I see no reason except the size of our school, to keep us from doing the same if those interested get behind the movement.

Harold Spangler: Good idea. Coaches find new material. Gives person, who could not make a varsity team, a chance to enjoy sports.

To Do Or Not To Do

Now that we have the idea before us, what are we going to do about it? Are we going to let it ride along until everyone forgets about it, or are we going to get behind and boost it over?

If all you fellows who like athletics, but are not good enough to make a varsity team, support the idea; all you who would like to see it succeed because of its beneficial effects do likewise.—The combined efforts of both factions plus the efforts of the few who are always ready to support measures of this sort will carry the plan to a successful end.

Take Your Pick

Now is the time of year when a fellow can't put up the old excuse that he doesn't attend the games because he doesn't like the sport.

We are in that part of the sport season when "Ye Sport Fan" finds himself in somewhat of a predicament. He would like very much to (Continued On Page 4)

Citrus Comes Here For Opening Dual Meet

TENNIS TEAM TACKLES SAN BERNARDINO

Coach Patton Needs More
Players To Complete
Full Racket Team

With the first league tennis tussel scheduled for tomorrow at San Berdoo, Coach Patton, tennis mentor, is still short enough players to complete a full team. This undecided attitude of Jaysee racketeers is causing the Santa Ana's strong team last year, Don coach no end of worry.

San Berdoo was rather easy for but an improved Indian team promises much more opposition this year. The Don team which hung a 15-8 defeat on San Berdoo was considerably broken up by graduation, and will have a plenty tough battle on their hands if they take the inland outfit.

According to Coach Patton, the probable starting players will be Orris Davis, first singles; Bob Hafer, second singles; Bill Mills, third singles; Milford Carmen, fourth singles; Walt Caruthers and Harry Nissley, first doubles; and Slim Eustis and Al Copeland, second doubles.

Pomona College To Face Don Gridders

Coach Bill Cook believes in giving his grid stars plenty tough opponents in their pre-season games. In past years the Don mentor has been sending his charges against the strong Trojan Frosh, but next year he plans to shoot the works in a night game with the Pomona College Sagehens.

The Don-Sagehen game will follow the U.S.C. Frosh contest on September 23. There is a possibility of the 1933 Frosh game being staged on the local gridiron. Although the location has not been definitely chosen, the home grounds would probably draw a capacity crowd.

In Vienna scientists cut off the heads of water-beetles and successfully transplanted them on the bodies of other insects.

Local Aquatic Stars Face Beach Team Wednesday

Spaniards Are Favorites In
Battle With Oiler Squad
At Huntington Beach

Coached by Pete Di Fabio, the combined squads of the Santa Ana high school and jaysee swimming teams will travel to Huntington Beach next Wednesday afternoon for the first meet of the year.

Although Di Fabio is only taking nine men, he is confident of victory. The fact that the best men of the two Santa Ana schools are competing, puts the beach boys at a disadvantage.

After comparing the times and possibilities of the contestants, the dope sheet divulges this information—Santa Ana 58, Huntington Beach 38.

Santa Ana swimmers and the events in which they are entered: Di Fabio—medley relay, breast stroke, free style relay; M. Plumlee—medley relay, backstroke, free style relay; Christensen—440 yard free style; Clark—50 and 100 yard free style and relay; Shank—100 and 220 yard free style and relay; Farquhar—breast and individual medley; Beall—220 and 440 yard free style; Talbert, 50 and 100 yard free style and medley.

Service Club Hoop Tourney To Be Run Off As Planned

Beautiful Fairways of the Santa Ana Country Club will be the scene of the Orange Empire Invitational Golf Tournament, according to the latest reports received by Bill Foote, Santa Ana Junior College Golf mentor. The tournament will be held on May 27 and will include five man teams from San Bernardino, Chaffey, Pomona, Riverside, Fullerton, Citrus and Santa Ana, the various colleges of the league.

The probable Don divot digging hopes will be George Lake, John Wells, Bob Edwards, Jack Kettler, and William Kistinger. Fullerton and Riverside have been conceded a slight edge in the contest, although Santa Ana and San Bernardino have a "dark horse" chance to cop the classic. Above all, however, there will be a lot of classy golf displayed for anyone interested in the game.

Santa Ana Invites School To Playday

Due to the earthquake, Long Beach and Compton were forced to call off the playday scheduled to be held at Fullerton, March 11. As there is little possibility of either Compton or Fullerton participating in any playday for some time, an invitation has been extended by Santa Ana jaysee to Fullerton for a meet between these two schools on Saturday, April 8. Those sports which will be represented will be tennis, hockey, and archery. However, archery has not as yet been definitely scheduled, as this semester's class is not far enough advanced to attempt any form of competition. The archery group would necessarily have to be made up of women who have had archery in the past.

Jaysee coeds who are taking part in the games will meet at eight o'clock for breakfast at the Green Cat. The games will begin at nine o'clock on the school field and will continue until eleven. Following the games, the pool will be open for an informal swim. Lunch will be eaten outside, and each girl is asked to bring her own lunch.

Feminine Athletes Awarded Credit In Hockey

Hockey season is now a thing of the past, and those jaysee feminities who diligently reported for practice on Monday and Wednesday afternoons have W. A. A. credit for a team as their award.

The coeds who rewarded were Susanna Alexander, Jean Berry, Marian Brownridge, Alline Buck, Barbara Copeland, Margaret Cox, Ruth Crowl, Francis Carl, LaVonna Davis, Joe Derigo, Elizabeth Downie, Beth Flippin, Virginia Gabriel, Vera Getty, Helen Harper, Marjorie Hess, Margaret Hoefner, Virginia Hopper, Francis Miller, Doris Rockwell, Adwain Smitt, Audrey Teel, Florence Turner, and Betty Walker.

Santa Ana Annexes Practice Game 7-6

In a thrilling game that featured fine defensive work and heavy hitting Santa Ana's baseball team came to life in the final frame to scarce two runs across the home plate and clinch a close game with the Woodbury College 7-6.

Harold Welty was the big gun of the Don swatsmiths. Harold collected four bingles in as many times at bat. Joe Koral gathered three safe hits in four trips to the plate. Thierry and McDaniels were the outstanding defensive stars.

DON'S FIRST LEAGUE GAME WITH BERDOO

Two Practice Tilts Remain
On Spaniard Schedule;
Berdoo Game Tossup

With an eye on the first league tilt with San Bernardino next Saturday, Santa Ana's "Hustling Horsehiders" play two more practice tilts before starting their conference schedule. Coach Clyde Cook plans to have his team in the best possible condition for the conference opener with the strong Indian team. Cook has not forgotten the 13-1 shellacking his Dons took from the Berdoo nine last year.

To-morrow, Coach Cook will send his men into action against some local team, and next Tuesday they will face the Brea Wildcats to wind up their training grind.

The San Bernardino Braves are fast rounding into shape. For a while the absence of pitchers bothered the inland mentor, but Savio and Jacobs, two new recruits, are showing much promising talent.

Coach Cook is rather worried over the possibility of Bomo Koral dropping out of school until next fall. As Bomo is the best of the local catchers, he would weaken the Don team considerably if he should drop out. In "Red" McDaniels, Coach Cook has another catching possibility.

Co-ed Athletes Plan For Future Program

April tenth is the date for all past and future women athletes to remember. Beginning at 2:45 p. m. pictures will be taken of all girls who have been out for basketball, hockey, tennis, swimming, life-saving, and archery. Girls are asked to report in gym suits or swimming suits. The swimming picture will be taken last.

Also, this same afternoon marks the beginning of the baseball season. Baseball is scheduled for Monday and Wednesday at 2:45 and freshies, sophs and post graduate students are all urged to come out.

The Tuesday following will find a new tennis season under way. The time is 4:00 p. m. Tuesdays and Thursdays.

Nine Dons Awarded Basketball Letters

Nine members of the 1933 Santa Ana basketball squad were awarded monograms by Coach Bill Foote. This year's Don team surprised everyone by going through all but the two final games of a stiff schedule with an unblemished record. The injury of "Hen" Thierry, crack forward and spark plug of the team, handicapped the local quintet in the last two games.

The lettermen and the number of games they played follow: Jack Stewart, forward, 15; Harold Spangler, center, 15; Henry Thierry, forward, 15; Chalmers Lawson, guard, 15; Harold Welty, guard, 15; Alex Clark, guard, 14; Ed Bragg, forward, 14; Hoarse Ritner, center, 11; and Earl Homan, forward, 8.

Major: "A tramp broke into our bath room last night."

Margaret: "How do you know it was a tramp?"

Major: "He took everything but the soap."

Invitational Golf Tourney To Be Staged Here

Starting next Monday after school, when the Bachelors engage the Junior Lions and the Buccaneers take on the Y. M. C. A., the Service Club basketball tournament will be run off. The tourney will be completed on Monday, Tuesday, Wednesday and Thursday of next two weeks. A complete schedule of the games appears elsewhere on this page.

According to the fellows playing in this tourney it is proving very popular, and will probably be worked out again next year. In games to date the Junior Lions and Bachelors look like the teams to watch in the race for the title. These rivals are slated to tangle in the big Gym Monday. Come out and watch them battle for blood.

Campus Club Hoop Tourney Continued

With the first round games all out of the way, and life resuming its normal routine, the Jaysee Service Club basketball tournament will be continued during the next two weeks. The schedule of games and time to be played appear below.

(Monday) Junior Lions vs Bachelors—Big Gym. Buccaneers vs Y. M. C. A.—Little Gym. Both games at three o'clock.

(Tuesday) Longfellows vs Gauchos—three o'clock.

(Wednesday) Junior Lions vs Y. M. C. A.—Big Gym. Buccaneers vs Gauchos—Little Gym. Three o'clock.

(Thursday) Longfellows vs Bachelors—three o'clock.

Games to be played during the second week:

(Monday) Junior vs Longfellows—Little Gym. Buccaneers vs Bachelors (grudge battle)—Big Gym. Three o'clock for both games.

(Tuesday) Y. M. C. A. vs Gauchos. 3 p. m.

(Wednesday) Junior Lions vs Gauchos—Little Gym. Buccaneers vs Longfellows—Big Gym. Both games at the usual time.

(Thursday) Y. M. C. A. vs Bachelors—No change in time.

Dons Face Berdoo In Track Contest

The many times postponed dual track meet with San Bernardino is scheduled to be run off at San Berdoo next Tuesday afternoon. Coach Bill Cook will take a strong team north to face Coach Art Schafer's Indians.

Eight returning lettermen, all good in their respective events, are working out daily at the northern institution. Added to these "vets" are several former prep stars.

Santa Ana, however is well prepared to match San Berdoo's strength in all events. The Dons have a great array of men including Bill Campbell, Jim Tawney, Jim Daneri, Fred Brooks, Ray Hoar, Jack Stewart, Lorenzen, Furuta, McFarland, Bill Clem, Bouldin, Finley, Vidal, Watts and many others to enter against Schafer's outfit. These men will give the Indians plenty to worry about for one afternoon.

Mr. King: "What do you mean—I'll teach you to kiss my daughter!"

Big Bill: "You're too late. I've learned how already."

OWLS BRING STRONG TEAM FOR CONTEST

Daneri, Brooks Are Stars
For Locals; Van Vliet
Is Lemon Hot Shot

After a three week lay-off Coach Cook once more sends his track stars into action tonight at 3:45, when they face Citrus jaysee in their first conference dual meet. According to Coach Cook the meet is a toss-up, with both teams having an equal chance for victory.

The Dons, who won five out of six dual meets last season and went on to capture the all-conference meet at Riverside, will find the Citrus outfit a tough hurdle in their road to another crown.

Citrus is well represented in all events. Moore, 10.2 century man, takes care of both sprints with the aid of Van Vliet in the 220. Van Vliet hops around 21 feet consistently, and should take the broad jump. Skidmore is also a broad jump prospect, who sometimes beats his pail, Van Vliet. Riley, distance man, will give the local boys a run for their money in the mile and two mile. Donell, ex-grid star, has been showing up well in recent practice sessions.

Santa Ana's greater variety of strength will probably be the deciding factor in the outcome of the meet. The Dons have Bill Campbell, two-miler; Captain Jim Daneri, javelin; Jim Tawney, miler; Jim Daneri, discus; Fred Brooks, Ray Hoar, and Jack Stewart, hurdles; Fred Brooks, Lorenzen, Furuta, McFarland, and Clem high jumpers; Brooks and Bouldin, sprinters; and Rhodes Finley, 880, besides several other first-class performers including Mike Vidal, former Modesto jaysee star.

Hazel: "Who is that man over snapping his fingers?"
Helen: "That is a deaf mute with the hiccoughs."

JAYSEE DIVERS DISCOVER NEW TYPE OF FISH

Mysterious secrets of the deep sea were discovered by three jaysee students while diving for the Balboa Boat Works salvaging the 40 foot cruiser "Vanity" in Fisherman's cove at Isthmus on Catalina Island.

New Fish Seen

Red and blue fish about an inch long were observed by the boys to be flitting about near some large spiny sea urchins. The small fish were exceptionally tame, but when they were frightened, they darted in among the spines on the urchins. Books on fish were searched without avail by the boys, Harold Christenson, Vernon Brock, and Glen Bolyard.

"It is possible," said Mr. Christenson, "that the fish have been observed before, but it is not likely that they are known to science. Certainly the trait of hiding among spines of the sea urchin has not been discovered or we could have found it listed in some book."

Turret shells and other interesting specimens were picked up by the enterprising young men. They saw many squid. While looking for a 1000 pound motor which had been lost the night before, Mr. Christenson saw approaching him through the water at a rapid rate a long, dark, shape. Thinking it was a shark, he held the knife which he always carries when diving ready, and watched the thing approach. As it drew near and circled swiftly about him, he was delightedly surprised to find it was only an inquisitive seal. Soon, between 15 and 20 of the animals gathered to watch him work at the bottom of the sea. By swimming at the surface with water goggles, the young men were able to see things on the bottom, 40 feet below. In this manner they observed a small octopus which they caught.

Will Return Later

As there were no facilities on the tug "Delta" for the preservation of specimens, none of the new fish were captured. The young men expect to secure some, however, at a later date as they will work in that vicinity with the Balboa Boat Works in salvaging this summer. A special boat is to be fitted out for the work. They will have opportunities while beneath the waves to secure specimens and observe the habits of the dwellers of the deep.

Also the boys walked among the remains of an old lava flow from Catalina. They rambled also over a tooth bed or solidified volcanic ash at the bottom of the sea.

The divers recovered many loose brass fittings, two 1000 pound 100-horse power Cermack motors, and other articles of value on their three day trip. Friday evening, after lifting one of the motors, the second slipped from its sling and dropped back to the bed of the ocean.

The young men averaged about four and a half hours of under water work each. They slept on the tug "Delta". On the return trip the motor of the tug stopped and a smaller tug was used to tow them in. The boys, besides their trip, experience, and excitement, received \$10 cash for the salvage work.

Concert Replaces Department's Opera

An announcement that a formal concert by the music department will be held May 26 instead of an opera was made by Miss Myrtle Martin, head of the junior college music department, today.

This concert will feature men's and women's choruses, men's quartet, and soloists from voice classes. There will be numbers presented by the jaysee choruses and the high school glee clubs combined and accompanied by the High School Orchestra.

Miss Martin stated that due to the lack of time and funds it would be impossible to put on an opera this year, but that in the future she hoped that there would be a bigger and more wonderful musical entertainment than ever presented.

The entertainment to be presented this year promises to be very entertaining and something new for Santa Ana jaysee music department, Miss Martin reports.

More Dancers Or Activities Cease

"Because the noon dances have been reduced in price it is anticipated that a larger number of students will take advantage of the pleasure offered at these noon get togethers," stated Duncan Harnois, president of the executive board, today. He further said that unless the attendance increases the dances will probably be dropped completely from the social calendar.

Although the prices have been reduced from 10 cents to five cents the high standard of entertainment will not be affected.

At a meeting of the executive board held March 10 Miner Whitford was authorized to purchase three new records for the coming dance, and one each week thereafter.

"No better way of getting acquainted with the members of the student body can be found than to attend the social activities of the college," states Miner Whitford, social commissioner, in commenting upon these noon time entertainments. At other colleges the size of Santa Ana, a high percentage of the students turn out, and enjoy them immensely, he added.

Answers To Questions On Feature Page

- 1.—In 1883 for King of Hawaii. Many of these are still extant.
- 2.—From the American overseer in early Mexican days, whose curly hair won him, and late the Rancho Del Chino and the town, the appellation; "Chino" in Spanish meaning "curly".
- 3.—No. His family anciently of Greek-Byzantine extraction was allied to the Imperial Roman dynasty of the Comneni, with which it had fled to Corsica on the fall of the Byzantine Empire in the sixteenth century, and through intermarriage, the Buonapartes were descendants of the ancient Roman emperors.
- 4.—Celtic peoples of Scotland and Ireland are of the Erse race. The word "Irish" is merely a corruption of "Erse".
- 5.—By James Hoban, of Dublin, Ireland.
- 6.—The most dangerous of all poison gasses, invented by Captain W. L. Lewis and officially known as Lewisite.
- 7.—Ancient Spanish dollars, bearing two upright pillars, representing the Pillars of Hercules, together with an entwining scroll or ribbon in the shape of an "S" are the derivation of our dollar sign.
- 8.—Because the saint's days and special holidays are so marked on church calendars.

Hear Sherwood Eddy Here

AN EDITORIAL

American college students have been criticized for their lack of interest in world problems. Lack of interest is often accounted for by lack of information, and it is this needed knowledge which the Y. M. C. A. and Y. W. C. A. are endeavoring to supply by bringing challenging speakers who are well versed on social problems to speak to the students of the college on "Y" day.

This year they are to be congratulated upon securing Sherwood Eddy to speak at a breakfast and an assembly. Sherwood Eddy is an international figure who has a personal insight into conditions all over the world, having worked with student groups everywhere. He is a challenging speaker with a broad outlook who takes a Christian stand on the problems of today.

Let us not be blind to these opportunities to acquaint ourselves with social, industrial and religious problems and at the same time hear a challenging message from an international figure.

Three Books Are Added To Jaysee Library Recently

Three new books have been added to the library, and are now ready for distribution. According to Miss Dickson, head of the library department, these books are very good sellers and should prove interesting to students.

"The Fountain" is the first book, and is by Charles Morgan. According to Mr. Knopf, book critic, this book offers the reader everything he could desire of a novelist: engrossing story, distinguished writing, emotional scenes, and character as you remember. Mr. Morgan wrote "Portrait in a Mirror," which was awarded the LaFemme-Vie Heureuse prize for 1929-1930. He also wrote "My Name is Legion."

The second book to be added is "Civilizing Ourselves," by Everett Dean Martin. Critics agree that this book is one of the outstanding works of the year. Mr. Martin will be remembered as the author of "Liberty" and "Meaning of Liberal Education." Miss Martin, music instructor of the junior college faculty, is the sister of this author.

The third book was secured especially for music lovers of the student body. "Listening to Music," by Douglas Moore, tells the reader how to increase his enjoyment of music. Mr. Moore is Assistant Professor of Music at Columbia University, New York.

Aptitude Test Given To Jaysee Students

There were 44 students who took the aptitude test Wednesday afternoon in Room 11.

All but three of these students were people already in the college, but who entered at odd times, so that they were not able to take the test with other groups.

The purpose of this test according to A. D. Hoenshell, who was in charge of it, is to help determine the students' natural mental capabilities, so that his adviser may help him more. In junior college no student actually fails the test, although they may be a great difference between results of various people.

There will be another of these tests given in June, along with a Subject A Exam for those just entering college. Both these are required before a student has gone very far in college work.

EL TORO PLIEGO

(Continued From Page 3)
see the baseball players knock the cover off the old horsehide, but he can't resist the temptation to take a squirt or two at that fellow jumping over a bar with the aid of a bamboo pole. About the time he decides to watch one contest for five minutes, and then give the other five minutes of his scientific observation re hears that the "race of the century" will be staged in the swimming pool. On his way to the pool, he runs across an exhausted man, who mumbles that McAdam has just put over a service ace in a tennis match.

Boy, don't we wish we could see all of these blamé contests? Well, I guess we will have to be content with watching the baseball and track contests in the future, we can't see

Mustol Asks For More Musicians For Department

Santa Ana Junior college is in need of musicians, states Samuel J. Mustol, director of Music for the high school and junior college.

There are many students in the institution that are able to play instruments but they lack the ambition to try to make the orchestra a success, Mr. Mustol continues. At the present time there are several students who are working out an organization and have been working on some of the best musical numbers they can find, but we need more players to make the orchestra big enough to aid in musical entertainments, said Mr. Mustol.

When the junior college wants to have some music Mr. Mustol has to get the high school and fill in with those students that have turned out from junior college.

There are plenty of musicians in the jaysee states Mr. Mustol, but they fail to see the great advantage which the school offers them. They receive credit and trips to places where they entertain, but this does not seem to be a good enough inducement, Mr. Mustol relates.

The instructor urges every one who can play an instrument to come out for the musical organization.

Las Gitanas Dance To Be At Pasadena

Las Gitanas will hold its formal dinner-dance this year at the Marlyn Hotel in Pasadena, Saturday, April 15, according to plans made at the last meeting.

Tickets will be on sale for the tea-dance that is to be held on Friday, April 21, for the benefit of the student loan fund, announced Maxine Clark, President of Las Gitanas.

Formal initiation of pledges will be made by Las Gitanas Monday, April 3, at the home of Katherine Robbins, where further plans for the dinner-dance will be completed at that time.

Radio To Be Installed In Halls By 'Y' Soon

As a campus service project, a radio is being outfitted by the Y. M. C. A. to daily present noon broadcasts and programs of merit to the students of the college.

It will be ready for use and set up in the hall in the next few days, according to Dewitt Bishop, campus service chairman of the "Y".

Another service project recently started is the lighting up of the hall map. These lights designate hot spots of news appearing in the paper on the bulletin board opposite. Numbers are attached to the bulbs corresponding to numbers written on prominent newspaper articles. This work is being handled by Herbert Diebel.

El Don May Organize Journalism Society

Members of El Don staff have been invited to form a Santa Ana chapter in a junior organization of Alpha Phi Gamma, the only coeducational journalistic honor society in four-year colleges in the United States.

At the state convention at San Bernardino will be presented whereby junior college journalism honor societies may become chapters in a junior organization of the national Alpha Phi Gamma.

everything at the same time.

All you old sport bugs come around and watch the Don athletes go through your favorite sport. Take your choice; what will it be—track, baseball, swimming, tennis, golf, or shall we watch those feminine athletes chase that little white pellet all over the field with stick in hand?

Religion Discussed At Y. M. C. A. Meet

"What Religion Means to Me" will be discussed by five students and a faculty member at the next Y. M. C. A. banquet which will be held Monday evening, April 10, in the jaysee cafeteria.

Following the talks there will be an open discussion lead by Larry Taylor, chairman of the program. The speakers are Morris Singer, Vernon Brock, John Golden, Howard Barnes, Merwin Carmen and Sheldon M. Hayden, faculty adviser.

Last Monday evening the Y. M. met at the city "Y" building and held a devotional period which was followed by a seven. The devotions were conducted by Larry Taylor.

During the recent vacation the "Y" cabinet held a one day retreat at Corona Del Mar. The program included a devotional period, a business meeting in which plans were made for "Y" day and recreation. They had a pot-luck lunch, swam and played football on the beach.

Investment Students Hear Insurance Man

R. Hays, member of the Speakers Bureau of Orange County Insurance Underwriters Association, will address members of the jaysee Investment class on the principles of Insurance next Monday at 11:00 o'clock in Room 215. According to Milton V. Newcomer, teacher of the class, Mr. Hays is considered one of the foremost authorities on insurance in Orange County.

Mr. Newcomer invites anyone interested in hearing Mr. Hays speak to come to room 215 and sit in the rear. It is necessary that guests sit in the rear in order not to interfere with class roll. The next speaker to be obtained is to be an attorney who will show the connection between law and investing.

Fisher Will Feature On Jaysee Program

Miss Alta Fisher will be featured on the Jaysee Radio program which again is to be broadcast Friday evening at 8 o'clock, playing "Dreaming Dear of You."

This number will be played in answer to many requests. Other musical portions of the program will feature, Walter Workman, popular vocalist, and Zelma Smith, violinist. Besides, this musical entertainment there will be a talk by Eugene Stevens, radio director, on some department of the Junior College, who says that the musical selections will be especially well worth hearing.

Sherwood Eddy Will Speak At 'Y' Meeting

(Continued From Page 1)
fast, as Dr. Eddy will, at the close of the address, attempt to answer all questions that are asked concerning his work.

Monday evening, the night before "Y" day, the faculty and their guests will have a banquet in the cafeteria with Dr. Eddy as speaker.

Some of Dr. Eddy's books have been placed on the reserve shelf of the jaysee library for the use of students.

When Dr. Eddy retired from "Y" work in 1931, Dr. John R. Mott, his associate, paid him the following tribute: I look upon Sherwood Eddy as one of the greatest evangelists of our day. I think of him as a recruiting officer of the choicest young men and women of all nations, and all races of mankind who have, under his appeals, his messages, his faithful dealings in groups and with individuals been set apart for the widening of

REPORTER TELLS NEWS BITS OF COLLEGE LIFE

They Got More Sense
Marriage is shunned by the average Phi Beta Kappa student, but once the step is taken he is inclined to have more children than the average graduate, according to a Master's thesis in philosophy at Columbia University.

Music Day Set
April 27 was set aside by the President of the United States for music day, as a step toward good will between Central, South, and North America.

Hell Week Abolished
"Hell Week", long a fraternity institution in the University of Wisconsin, will be abolished if a series of new regulations now under consideration are adopted. "Hell Week", which formerly was feared and dreaded by every fraternity pledge, was held to be an out-worn tradition by the Daily Cardinal, the college paper.

Sunday School Is Crime Sentence
Three years of attendance in Sunday school is the sentence imposed upon University of Colorado students who are caught drinking.

C. H. Rudy To Talk At Engineers Group

C. H. Rudy, residing engineer of the Southern Sierras Power Company at Boulder dam, will speak before the entire division of Engineers April 25, as was brought out at the engineers club meeting last Tuesday evening.

Last year Mr. Rudy spoke before the engineers here and showed some pictures of his line and also of the early construction of Boulder dam. This time he will have much better pictures.

During the Tuesday engineer's meeting, an overnight beach party to Laguna was discussed. It will be a diving expedition and fishing trip. William Lusk of Orange has offered his 30-foot launch for the use of the club. A committee has been appointed to find facilities for their housing if they go. A field trip to Catalina island was touched upon during the meeting. George R. Wells, president of the school board, will furnish a boat for this trip.

Yearbook Deadline Set Up To April 18

(Continued From Page 1)

12:30.
April 10, Monday, Alpha Rau Tau, 11:55; Alpha Gamma Sigma, 12:30. April 11, Tuesday, Debating Squad, 11:55; Phi Theta Kapa, 12:30. April 12, Wednesday, French Club, 11:55; German Club, 12:30. April 13, Thursday, Spanish Club, 11:55, O. K. Club, 12:30. April 17, Monday, Las Meninas, 11:55.

Bachelors, Buccaneers, Gauchos, and Junior Lions, who are not mentioned here, have already had pictures taken. Not all of the clubs mentioned in the above schedule have signified their desire to have a picture, but the few who have not are expected to do so judging from previous years, concludes Mr. Campbell.

the limits of this kingdom that some day will prevail."
